PROFILE

I have a degree in the Information and Technologies field and I appreciate working on the development or the upgrading of websites or software applications. The school I am currently in (HETIC) allows me to do so, and I have had the chance to discover new web technologies.

As far as web programming is concerned, I am particularly interested in 3D engines with ActionScript 3 and multi-user servers such as SmartFoxServer.

As for the computer programming, I have worked, increased my knowledge and improved my skills with C/C++, mostly through personal projects. In a near future, I am planning on learning such languages as Java and Python, of which I already know a few about.

EXPERIENCE

LOZE TECHNOLOGIES, PHP/ACTIONSCRIPT 3 PROGRAMMING — JUNE-AUGUST 2009 (3 MONTHS)

I was in charge of the development of 3D Flash applications, Flash website and other Flash banners. I also worked on the company's projects with PHP/Zend Framework.

SITE-JEUX-FLASH.FR, PHP/ZEND PROGRAMMING — DECEMBRE 2009 (1 MONTH)

Website created with another student to promote our abilities with Flash and to benefit from the numerous searches of Flash games on the Internet.

YANSYS, FLASH/AS2/AS3 - PHP PROGRAMMING — JULY/AUGUST 2008 (3 MONTHS)

I was in charge of the whole development of a Flash/AS2/AS3 interface for the creation of a software package. I also worked on the company's other projects, with PHP / PostgreSQL.

AVRIL-SOLUTIONS, PHP/AJAX PROGRAMMING — MAY/JUNE 2008 (2 MONTHS 1/2)

I had to create the company's web site. I was able to develop with Mootools (JavaScript Framework) and with a CMS for the second website (Joomla!).

EDUCATION

HETIC, First year — 2008/09

Two-year diploma in IT (DUT SRC): Programming, Internet and Communication, Vichy, Allier(03) — 2008

SKILLS AND KNOWLEDGE

Xhtml/Css/SEO : I respect the web semantics to realize website full CSS (XHTML format) and to allow a better accessibility and SEO.

Php/MySQL/Postgres : OOP in PHP5 (MVC), Frameworks : Zend, Template Engine : Smarty.

JavaScript/AJAX : Framework : Mootools, JQuery, Prototype.

ActionScript 3 : My favorite language. I know 3D Frameworks (PaperVision3D, Alternativa3D), Flash remoting, WiiFlash. I have little knowledge of SmartFox Server.

Java : Applications and graphic interfaces (AWT/Swing). I learn Java on my free time.

Python : Applications and graphic interfaces. I have barely had the opportunity to work with Python.

C/C++ : My first language; I have a solid knowledge of it. Multimedia library knowledge: GTK+, SDL. Good knowledge with STL.
